

“Primavera Enterprise” Training Program (English Material)

Course Length: 18 Hours @ 4 days

Course Overview

Primavera Project Planner for the Enterprise is comprehensive, multi-project planning and control suite of software for managing every project you take on. It facilitates project management regardless of the size or scope of your enterprise. Whether you have just one project on a laptop, or thousands on a corporate server, Also, it offers a total relational picture of their status. Program and project managers, as well as dedicated planners and schedulers, rely on Primavera for the most complete insight into all of their projects-from summaries by cost account and work breakdown structures, to proactive control of project deadlines, issues and risks. By focusing on the full project lifecycle, Primavera gives you the ability to plan, budget, monitor, and control all your projects with efficiency and foresight.
